

**KÜPER**<sup>®</sup>-Replacement screens  
for **BAUER** BE Separation plants

now also available

at Tunnel24

**KÜPER**<sup>®</sup>-screens  
for your **BAUER BE**  
separation plant

For many years, **BAUER BE separation plants** are known worldwide for their performance and durability. From their early beginning, in the 90s, the BAUER BE plants were equipped with **screen panels made by Küper** from Bochum, Germany.

Küper is a company with a long tradition, which is already managed in the second generation as a family business. The **production of the screen panels takes place exclusively in their Bochum facilities** in Germany, which guarantees a **high quality** through **continuous quality control** according to German standards.

We are pleased to announce that **Tunnel24 and Küper have entered into a strategic partnership**. From now on you can purchase **all screen panels as spare parts for your BAUER plants** in well-known and proven quality from us, without doing adjustments to your plants.

The article number known to you is sufficient for us to prepare a quotation for the replacement screen panels. We can also supply screen panels for the **new screen system of BE plants**, as well as for plants of other manufacturers.

**If you are looking for good delivery times, service and support, you have come to the right place.**
