

# TB35/100

The **TB35/100** built by EITZEN is a grouting unit for Mixing and Injection of bentonite suspensions. It has been designed in close cooperation with Tunnel24 GmbH and is available exclusively from Tunnel24.

This compact and efficient grouting unit features a high-speed colloidal mixer and a hydraulically operated duplex pump. Special attention was paid to an easy operation in conjunction with a high durability at an attractive price.

The unit, which is manufactured in Germany, has been tailored to Microtunneling operations but is also suitable for other applications.

## Technical Data:

Max. Delivery Rate	35 l/min (9.2 gpm)
Max. Pressure	90 - 100 bar (1,300 - 1,450 psi)
Volume Mixing Tank	180 l (47.5 gal)
Volume Storage Tank	700 l (185 gal)

## Dimensions:

Length x Width x Height	2,300 x 1,000 x 2,000 mm (90 x 39 x 78 in)
Weight:	990 kg (approx. 1 t)
